

Deshan Kodithuwakku

Software Engineer | Full-Stack & Cloud Solutions Specializing in MERN, Laravel, and AWS Cloud Architecture

+94 76 107 0446 deshankodithuwakku01@gmail.com Colombo, Sri Lanka

deshankodithuwakku deshankodithuwakku

Professional Summary

Motivated Full Stack Developer with hands-on experience in MERN stack and PHP frameworks (Laravel, CodeIgniter). Proven ability to develop scalable web applications and optimize backend logic. Currently expanding expertise in DevOps practices and Cloud Architecture (AWS) to build secure, high-performance deployment pipelines.

Technical Skills

- Cloud & DevOps:** AWS (EC2, S3 Basics), CI/CD Pipelines (Learning), Docker(Learning), Hostinger, cPanel, FTP/SFTP.
- Languages:** JavaScript, PHP, HTML5, CSS3, SQL.
- Backend Development:** Laravel, Node.js, Express.js, CodeIgniter, RESTful APIs, MVC Architecture.
- Frontend Development:** React.js, Tailwind CSS, Bootstrap, jQuery, AJAX.
- Databases:** MySQL, MongoDB (NoSQL), Database Normalization.
- Tools & Version Control:** Git, GitHub, Postman, VS Code, WordPress/WooCommerce.

Experience

Software Engineer Intern

Oct 2024 – Apr 2025

GateOneSoft

Colombo, Sri Lanka

- Material Management System:** Developed a comprehensive inventory tracking system using **Laravel** and **MySQL**, featuring bulk upload capabilities and multi-level approval workflows to streamline material handling.
- HR & Payroll System:** Contributed to a full-stack HR solution using **CodeIgniter**, implementing modules for employee asset tracking, leave management, and shift scheduling.
- Web Development:** Designed and deployed responsive WordPress websites (e.g., cneeds.lk).

Key Projects

LTBio – LMS

Dec 2025 – Present

- Designed a Decoupled Architecture:** Built a scalable system by decoupling the **React.js** frontend from the **Laravel** backend, utilizing **RESTful APIs** for seamless data exchange.
- Advanced Security Implementation:** Engineered secure API endpoints with strict data validation to manage student registration and exam workflows.
- Production Deployment:** Managed the complete hosting configuration on **Hostinger**, ensuring seamless integration between the frontend and backend in a live production environment.
- Technologies:** Laravel, React.js, MySQL, RESTful APIs, Hostinger.

Partylab - Event Management System

Dec 2024 – Feb 2025

- End-to-End Event Portal:** Designed a dynamic booking platform allowing users to browse portfolios and schedule events online, streamlining the client booking process.
- FinTech & Automation:** Integrated **PayHere** payment gateway and **SMS gateways** to automate invoicing and confirm bookings instantly, reducing manual financial work.
- Technologies:** WordPress, Elementor, PayHere API, PHP, MySQL.

FEDDYFLOWS - Freelance Web Solution (German)

Dec 2024 – Feb 2025

- Custom CMS Solution:** Delivered a tailored WordPress solution with advanced theme customization and plugin integration to meet specific client branding requirements.
- Responsive Optimization:** Designed a fully responsive layout to ensure high user retention across mobile and desktop devices.
- Technologies:** WordPress, Elementor, PHP, CSS3.

Projects (CONT'D)

- Mikida – E-commerce (Australia) 

Dec 2024 – Jan 2025
- **Cross-Border E-commerce:** Developed a fully functional store for the Australian market, integrating **Stripe API** for secure, seamless international transactions.
 - **Performance Optimization:** Managed product inventory and optimized server configurations on **Hostinger** to handle high traffic loads with fast page rendering.
 - **Technologies:** WordPress, WooCommerce, Stripe API, PHP, MySQL.

- Event Management System (MERN Stack) 

Jun 2024 – Aug 2024
- **Full Stack Development:** Developed a web-based event planning application using the **MERN stack**, implementing RESTful APIs for real-time data management.
 - **API Design:** Created and managed scalable APIs to handle complex event data structures efficiently.
 - **Technologies:** MongoDB, Express.js, React.js, Node.js.

- Sri Lanka Laden – E-commerce (Germany) 

Feb 2020 – Jul 2023
- **International Client Delivery:** Developed a customized e-commerce solution for a German client, featuring complex product categorization and recipe integration.
 - **Long-term Lifecycle Management:** Provided **continuous maintenance, security updates, and feature enhancements for over 3 years**, ensuring stable operation and long-term client satisfaction.
 - **Technologies:** WordPress, WooCommerce, PHP, Payment Gateway Integration.

Education

- BSc (Hons) in Information Technology

University of Sri Lanka Institute of Information Technology

Expected July 2026
- Higher National Diploma

University of Sri Lanka Institute of Information Technology

2022 - 2024

Certifications & Continuous Learning

- **AWS Academy Graduate - Cloud Web Application Builder - Training Badge**
- **AWS Cloud Practitioner Essentials (Self-Study) - Covering core cloud concepts and AWS services.**
- **DevOps & Cloud Computing (Self-Study):** Actively learning CI/CD pipelines, Docker containerization, and AWS cloud infrastructure management to enhance deployment workflows.
- **Full Stack Development:** Continuous practice in MERN stack and modern PHP frameworks through building real-world projects.

Languages

- **English:** Professional Working Proficiency.
- **Sinhala:** Native Proficiency.
- **German:** Basic Knowledge (A1 Level) - Currently Learning.

Professional Skills

- **Core Competencies:** Problem Solving, Agile/Scrum Collaboration, Adaptability to New Tech stacks.
- **Communication:** Technical Documentation, Client Requirement Analysis (Freelancing Experience).
